Saurashtra University

- Bachelor of Computer Application, RAJKOT
- CGPA:6.50

Languages

- English
- Hindi
- Gujarati

Project

MERN Stack CRUD API

Technologies Used: Node.js, Express.js, MongoDB, REST API

- Built a RESTful CRUD API using Node.js and Express.js for handling structured data operations.
- Integrated MongoDB with schema-based data management and implemented API routing using HTTP methods.

React Dynamic UI Showcase

Technologies Used: React.js, JavaScript, CSS3, Bootstrap

- Developed an interactive React application featuring reusable components, dynamic cards, forms, counters, and colour picker functionality.
- Implemented responsive UI design and state management for improved user interaction and performance.

JavaScript Interactive Web Playground

Technologies Used: HTML5, CSS3, JavaScript

- Created interactive mini web applications including dark/light mode, Rock-Paper-Scissors game, and text generator projects.
- Demonstrated strong DOM manipulation, event handling, and responsive frontend development concepts.
